

Maths

In Maths we will be learning in depth about numbers 6-10. We will learn about composition of numbers, more and fewer, problem solving strategies and continuing our subitising skills. We will learn about representing numbers using objects, 10 frames and other methods as well as learning ways to explain and justify our problem solving strategies.

Topic

We will continue our learning under the theme...

Marvellous me and my super celebrations!

We will be using the stories The Best Diwali Ever, Little Glow, The Leaf Thief, Stickman and various nativity stories to inspire our learning. Keep an eye out on Twitter to see some of the fun we get up to linked to this topic! We will be learning about seasons, months of the year, changes in seasons and noticing patterns within this, family trees and our family as well as Christmas traditions both in the UK and across the world.

General

Please take note of PE and forest school days this half term:

PE is every WEDNESDAY (please ensure your child has their kit in school for this half term)

Forest School is every TUESDAY (please ensure your child comes dressed appropriately on Tuesdays)

Please can you double check all coats and uniforms to ensure names are clearly visible to avoid any unnamed lost property this half term, thank you.

Foundation Stage 2 Curriculum Newsletter

Diary dates & events

What a brilliant first half term we have had with your children! They have begun new routines, settled into their learning and are working so hard in everything that they do each day. We are looking forward to another fun filled, busy half term together.

Upcoming things to note...

EYFS Nativity

Wednesday 11th and Thursday 12th December @ 2.30pm

All children will be involved in our EYFS Nativity on this day.

Further details about watching etc will be sent out by our school admin team.

Please note that you will be invited to attend one of the Nativity performances only – Class 1 families Wednesday and Class 2 families Thursday.

Christmas Dinner + Jumper Day

Monday 16th December

Further information about this will be sent to you from our school admin team nearer the time

Please remember you can email us with any queries using our year group email address –

f2@christchurch-moreton.wirral.sch.uk

Please note all attendance, medical or general school enquiries should go to the school office.

Our Value

Our value this half term is.. **Patience.**

This is taken from our school vision and we will explore this through our worship and everyday activities this half term.

English

In English we will be continuing to link lots of our learning to our theme 'Marvellous me and my super celebrations!'. Within this we will learn about 'Seasons to Celebrate'. Our key class texts will be The best Diwali ever!, Little Glow, The Leaf Thief, Stickman and various nativity stories. We will be sharing a variety of books, encouraging and promoting a love for reading, learning new sounds and letters in phonics and developing our speaking and listening skills through our continuous provision activities. We will be encouraging children to apply their phonic knowledge to start to write words and captions independently.

RE & Worship

In RE we will be learning all about Celebrations and Christmas. Our RE curriculum allows us to teach this linked to Christianity as well as learning about other celebrations at this time of year in Hinduism. This is done in an age appropriate way and allows children to learn and explore their own thoughts and ideas. We will also be sharing in regular worship together where we sing together and join the wider school and our community such as Christ Church Clergy.

Homework

As we progress through the year, we will send home activities and ideas of things you can do that would help to consolidate your child's learning and development at home. Your child will be bringing home their first reading book this week, please make time to read and re-read this book a couple of times over the weekend to help develop their fluency and speed. If you have any questions about supporting your child's reading, please do not hesitate to speak to your child's class teacher. Please continue to access Numbots app for developing maths fluency and upload any additional activities your child does out of school on Tapestry.
